Dear John,

I would like to take this opportunity to express my thanks for my beautiful new home.. As you know, selecting a builder is not an easy process. We had a more difficult situation then most, being that we knew we would be out of the country for the most part of construction. Fortunately I was referred to you by a close friend.

You and your professional staff made the building process a pleasant venture for us. Once again, Thank you and I will be sure to recommend you to my closest friends and acquaintances

Sincerely Yours,
