Mr. John M. Cherveney,

Since we were building a \$350,000. home and would not be in the area during the construction period we felt we needed to find a builder we could trust.

After spending several weeks talking with various builders, we finally decided on Select Homes by JMC Contracting, Inc.

We were more than pleased when we saw the final product. Everything was handled in a professional and detailed manner, It is good to know that there are still quality minded builders who still show pride in their work and have the financial stability to be around year after year.

So if your looking for a true quality minded builder, we highly recommend Select Homes by JMC Contracting, Inc.

Sincerely,
