Dear John,

We are writing this letter to compliment you and your associates on the contracting and building of our home in River Landing.

Although we were living in Illinois while our home was being built you completed all the changes we requested making it ready for occupancy on schedule.

We were also impressed with your integrity, attention to detail, and the use of quality material in the construction of our home.

We are proud of our home and would be honored to show it to any of your potential customers.

Cordially,

Rich and Angeline De Vries ^
