Palm City, FL 34990

Dear John,

We would like to take this opportunity to offer our sincere thanks and appreciation for the effort and diligence put forth in the construction of our new home. The finished product far exceeded our expectations.

After having been in the building business most of my business career, I have become very aware of the many problems that can be encountered in the course of construction.

Since we were going to be up north during part of the construction time it was very important to find a quality builder who we felt would be trustworthy.

I realize from experience that building a home is a major undertaking. JMC Contracting's attention to detail and response in dealing with problems made this a pleasant experience.

I would like to commend Select Homes by JMC for a job well done and be assured we will recommend you to anyone considering building a new home.

Sincerely,

June & Donald Dunn
