Orchid Bay  
Palm City, FL 34991

To: John Cherveney

Dear John,

How time flies! A year has gone by since we have moved into our home here in Orchid Bay. It is with great satisfaction that we are writing this letter of appreciation to you for your professional expertise in planning & building a superb quality home for our family. The year after tells alot about the quality of workmanship and materials used in the process. We know, we have built two previous homes and by far the home you have built for us has surpassed our expectations. More importantly, your follow up and service has kept this experience a pleasant one.

We are glad that we have chosen Orchid Bay and that we chose you for our builder. The reputation of many builders here in South Florida is very disheartening and the horror stories that we have heard about other peoples experiences have confirmed that our decision to go with you was the right one! We are not only glad that you are our builder but that we also consider you and Doug friends of our family.

Please continue to set the standards for others to follow. The building industry in South Florida needs more caring builders like you! Lisa and I would be very willing to recommend to anyone who is considering the task of building a new home to work with John Cherveney and Doug at Select Homes, they will treat you right! We wish you the best of success in your lifes work and maybe, just maybe in a few years we will be ready to build another home with you somewhere in Martin County. Many thanks to you again John.

Sincerely,
