Port St. Lucie, FL

Dear John:

We are writing to thank you. We have been living in our new home for about three weeks now. We could not have asked for our first experience with building a home to be any more pleasurable than you made it. Thank you for always taking the time out of your busy schedule to see that all our needs were met and all of our questions answered.

We would be more than happy to recommend you or talk with any potential customers. Thank you for such a beautiful home.

Sincerely,
