

January 23, 2009

Four years ago, Homes by JMC custom built a beautiful four bedroom home for my family. John and his staff made entire process (from design to completion) quite "stress-free" - John's attention to detail and his responsiveness was excellent! The home's stronger than Fort Knox (it has withstood two hurricanes with no damages) and is very energy-efficient. My wife and I definitely appreciated John's craftsmanship and his professionalism. We love the home and remain very grateful to John for making our dream come true.
